The Good of the
Dining Hall

The Dining Hall

We all love the dining hall because it makes us happy. We eat healthy fruits and veggies we are strong and do well in school work because of the healthy food. The meal helps children who come to school with Empty Tummies to eat well and concentrate in class. We all love our dining hall it is clean and neat. We thank the ladies that serve us food, they are nice and friendly they cook us delicious food. In the past we didn't have chair to sit when we eat we had to stand up and eat while walking, it was bad but now we are more than happy because having a hall makes us happy and our parents happy because we no more need pocket money. We just use our money for the Farewell function or buy school stuff. We even thank our principal for making us a hall. She always make sure that anyone eats and their tummies are full. Thank you principal.
